

PERSONAL INFORMATION Marta Licata

✉ marta.licata@uninsubria.it

Sex Female | Date of birth Nationality Italian

SCIENTIFIC AREAS OF INTEREST:

PHYSICAL ANTHROPOLOGY

BIOARCHAEOLOGY

PALEOPATHOLOGY

MUSEOLOGY

ACADEMIC TITLE

14 MARCH 2025

NATIONAL SCIENTIFIC QUALIFICATION (ASN) TO FUNCTIONS AS FULL PROFESSOR IN 05/B1 - ZOOLOGY AND ANTHROPOLOGY-ANTHROPOLOGY

19 NOVEMBER 2020

NATIONAL SCIENTIFIC QUALIFICATION (ASN) TO FUNCTIONS AS ASSOCIATE PROFESSOR IN THE THE SCIENTIFIC DISCIPLINARY SECTOR BIO/08 BIOLOGICAL ANTHROPOLOGY

COMPETITION SECTOR 05 / B1 ZOOLOGY AND ANTHROPOLOGY (ARTICLE 16 OF LAW NO. 240 OF 30 DECEMBER 2010)

ITALIAN NATIONAL AGENCY FOR THE EVALUATION OF UNIVERSITIES AND RESEARCH INSTITUTES

31 OCTOBER 2018

NATIONAL SCIENTIFIC QUALIFICATION (ASN) TO FUNCTIONS AS ASSOCIATE PROFESSOR IN THE SCIENTIFIC DISCIPLINARY SECTOR MED/02 HISTORY OF MEDICINE

COMPETITION SECTOR 06 / A2 GENERAL PATHOLOGY AND CLINICAL PATHOLOGY (ARTICLE 16 OF THE LAW OF 30 DECEMBER 2010, N. 240)

ITALIAN NATIONAL AGENCY FOR THE EVALUATION OF UNIVERSITIES AND RESEARCH INSTITUTES

DECEMBER 2011–
NOVEMBER 2014

PhD in Medicine and Human Sciences awarded on 4 February 2015

University of Insubria, XXVII cycle

Final dissertation entitled: *Ancient populations of Lombardy: Anthropological and Paleopathological analysis of a skeletal sample from archaeological excavations in the province of Varese*

University of Insubria

Supervisor: Prof. Giuseppe Armocida

5 NOVEMBER 2009

Master's Degree in "History of Archaeological and Historic-Artistic Heritage"

University of Turin

07 NOVEMBER 2007

Bachelor's Degree in "Sciences of Cultural Heritage"

University of Turin

TEACHING ACTIVITIES
FROM OCTOBER 2024 –
PRESENT

ARCHAEOBIOLOGY, Degree Course in Biotechnology, University of Insubria
INFORMATION LITERACY, Degree Course Biotechnology for the Bio-based and Health Industry, University of Insubria
ANTHROPOLOGY, Degree Course in Physiotherapy, University of Insubria.
PHYSICAL ANTHROPOLOGY, Bachelor's Degree Course in Motor Sciences, School of Medicine, University of Insubria
ANTHROPOLOGY, Degree Course NURSING, School of Medicine, University of Insubria, Varese
ANTHROPOLOGY, Degree Course NURSING, School of Medicine, University of Insubria, Busto Arsizio
ANTHROPOLOGY, Degree Course NURSING, School of Medicine, University of Insubria, Como
DEMOETHNOANTHROPOLOGICAL DISCIPLINES, Degree Course Professional Education, School of Medicine, University of Insubria, Como
Contract Professor in Cultural and Physical Anthropology, Degree Course in Physiotherapy, University of Insubria, 12 hours.

FROM OCTOBER 2021 - 2023
FROM OCTOBER 2018-2023

Contract Professor in Archaeobiology, Degree Course in Biotechnology, University of Insubria, 24 hours.

FROM NOVEMBER 2017 - 2021

Contract Professor in History of Medicine, Bachelor's Degree Course in Dental Hygiene and Degree Course in Cardiocirculatory Pathophysiology and Cardiovascular Perfusion Techniques, School of Medicine, University of Insubria, 12 hours.

FROM NOVEMBER 2016-2021

Contract Professor in History of Medicine, Bachelor's Degree Course in Medical Radiology Techniques, for Imaging and Radiotherapy and Three-Year Degree Course in Biomedical Laboratory Techniques, School of Medicine, University of Insubria,

FROM NOVEMBER 2014-2023

Contract Professor of Physical Anthropology, Bachelor's Degree Course in Motor Sciences, School of Medicine, University of Insubria, 16 hours.

LECTURER IN OTHER COURSES

13 SEPTEMBER 2022

Cemetery archaeology and community.

Diocesan cultural association in collaboration with the Cultural Heritage office of the archdiocese of Vercelli. Volunteer Course 2022, XI edition

28 MARCH 2022

Study of tumours in antiquity. Paleopathological investigations on human remains

Breast Oncoplasty and Integrated Treatments, 6th edition

University of Genoa

22 MARCH 2022

From the archaeological context to anthropological interpretation

Master's degree Course in Archaeology: Professions and Knowledge - ARCHEOPeS

University of Genoa

1 MARCH 2022

Methods for the recovery of human remains in the archaeological field

Master's degree Course in Archaeology: Professions and Knowledge - ARCHEOPeS

University of Genoa

13 NOVEMBER 2021

Archaeological Human Remains: issues in curating and displaying

Commission Culture and Sport, Asmara Eritrea-project VITAE-SUSTAINABLE and Valorization of the Eritrean Heritage Adulis Archaeological site project

11 NOVEMBER 2021

Methods in Physical Anthropology

Course of Archaeological Research Methodology

Bachelor of Arts in Literature, Department of Humanistic Studies
 University of Eastern Piedmont
 11-18 MAY 2021 Organization of Elective Didactic Activity 1 credit: *Bioarchaeology and physical education Sciences. Experiences that meet*
 Bachelor's Degree Course in Motor Sciences, School of Medicine
 University of Insubria
 14 MAY 2021 Elective Didactic Activity: *Insights into Physical and Cultural Anthropology*, Degree Course in Physiotherapy, School of Medicine
 University of Insubria.
 11 MAY 2021 *The importance of bioarchaeology in the study of our past*
 Teaching of Elective Didactic Activities "Bioarchaeology and Motor Sciences. Experiences that meet"
 Bachelor's Degree Course in Motor Sciences, School of Medicine
 University of Insubria
 5 AND 12 MAY 2021 *Multidisciplinary approach in the study of human remains*
 Bachelor's Degree Course in Medical Radiology Techniques, Imaging and Radiotherapy and bachelor's degree Course in Biomedical Laboratory Techniques, School of Medicine
 University of Insubria
 5 MAY 2021 *Osteoarchaeology today. A path towards approaching medical skills*
 Elective Didactic Activities "Osteoarchaeology and Paleopathology. Multidisciplinary approach to the study of human remains"
 Bachelor's Degree Course in Medical Radiology Techniques, Imaging and Radiotherapy and Course in Biomedical Laboratory Techniques, School of Medicine
 University of the Studies of Insubria
 18 JANUARY 2021 *Study of tumours in antiquity. Paleopathological investigations on human remains*
 2nd Level University Master Teaching Breast Oncoplastic and Integrated Treatments 5th Edition
 University of Genoa
 FROM 4 TO 5 JUNE 2020 Organization of Elective Didactic Activities *Paleopathology and Anthropology. Study of the pathological evidence on the findings*
 Bachelor's Degree Course in Motor Sciences
 University of Insubria
 SECOND SEMESTER, ACADEMIC YEAR 2019-2020 16 hours of seminar teaching in Archaeological Research Methodology
 University of Insubria
 FROM 26 TO 29 MAY 2020 Elective Didactic Activity *Paleoanthropology and Physical Anthropology*, Degree Course in Biomedical Laboratory Techniques
 University of Insubria
 14 DECEMBER 2019 *Bioethics in Archaeology*
 "Bioethics and thought of complexity"
 IANUA-IUSSUGE University High School
 University of Genoa
 6 JUNE 2019 *Study of human remains from archaeological sites. Practical laboratory activity*
 Teaching Elective Didactic Activity "Bioethics Bioarchaeology and Archaeomedicine" School of Pharmaceutical Medical Sciences
 University of Genoa
 FIRST SEMESTER, ACADEMIC YEAR 2018-2019 16 hours of seminar teaching in Archaeological Research Methodology, University of Insubria
 5 AND 6 MAY 2019 Organization of Elective Didactic Activity "Paleopathology. Study of pathological evidence on bone findings"
 Bachelor's Degree Course in Motor Sciences
 University of Insubria
 7 SEPTEMBER 2018 *Anthropology and surgery: current and research perspectives*

12 JUNE 2018	<p>PhD in Surgical Sciences and Applied Microbiology University of Parma</p> <p><i>Paleonutritional study in history: investigation of human remains</i></p> <p>Elective Didactic Activity "Vegetarian nutrition: a challenge for human health, animals and the environment"</p> <p>School of Medicine and Surgery University of Genoa.</p>
20 MARCH 2018	<p><i>Study of tumours in antiquity</i></p> <p>II Level University Master in Breast Oncoplasty and Integrated Treatments. Fourth Edition University of Genoa - Emilia-Romagna Regional Health Service and Postgraduate School of Plastic, Reconstructive and Aesthetic Surgery University of Genoa</p> <p>San Martino Polyclinic Hospital in Genoa</p>
FIRST SEMESTER, ACADEMIC YEAR 2017-2018	16 hours of seminar teaching in Archaeological Research Methodology University of Insubria
15 NOVEMBER-21 DECEMBER 2017	Collaborative teaching activities, course of Archaeobiology and Forensic Biotechnology Bachelor's Degree Course in Biotechnology University of Insubria
ACADEMIC YEAR 2016-2017	Elective Didactic Activity <i>Paleopathology. Study of ancient human remains</i> Bachelor's Degree Course in Medicine and Surgery University of Insubria.
4 MARCH 2014 - 12 MARCH 2014	Presentation at the Elective Didactic Activity <i>Insights in Narrative Medicine</i> Bachelor's Degree Course in Physiotherapy in Anthropology, School of Medicine University of Insubria
2 MARCH 2016	<i>Anthropology</i> PhD in Clinical and Experimental Medicine and Medical Humanities University of Insubria
29 SEPTEMBER 2014	<i>History of Medicine lesson</i> at Professor Giuseppe Armocida Introduction to Medicine course Bachelor's Degree Course in Medicine and Surgery, Polo Centrale University of Milan.

GRADUATION THESIS SUPERVISOR

SUPPORT AND / OR CO-SUPERVISOR ACTIVITY FOR THESES - IN MEDICINE AND SURGERY, PHYSIOTHERAPY AND BIOTECHNOLOGY AT THE UNIVERSITY OF INSUBRIA

1. Traumas from the past. Analysis of three anthropological finds from the bioarchaeological site of Santa Maria Maggiore, Vercelli. Degree Course in Biological Sciences, 2024 (proclamation October 23, 2024).
2. Autopsies from the past. Analysis of craniotomies from the site of Santa Maria Maggiore in Vercelli. Degree Course in Biotechnology, University of Insubria, 2024, (discussion and proclamation October 21, 2024).
3. Archaeozoological analysis of the bone finds found in the crypt of Santa Maria Maggiore (VC) with acquisition of their point cloud. Degree Course in Biotechnology, University of Insubria, 2024, (discussion and proclamation October 21, 2024).
4. Portraits of Nobility: Anthropological Analysis of a Family from the 1700s. Degree Course in Biotechnology, University of Insubria, 2024, (discussion and proclamation September 20, 2024).
5. Childhood in History: Archeobiological Analysis of Infantile and Prenatal Finds from the Site of San Colombano di Bobbio (PC). Degree Course in Biotechnology, University of Insubria, 2024, (discussion and proclamation September 20, 2024).
6. A Case of Bilateral Atrophy from the Site of Santa Maria Maggiore in

Vercelli, Degree Course in Biological Sciences, 2024 (proclamation September 18, 2024).

7. Two cases of craniosynostosis from the site of Santa Maria Maggiore in Vercelli. Degree Course in Biotechnology, University of Insubria, 2023, (discussion and proclamation March 25, 2024).
8. Reconstruction of the biological profile of a medieval anthropological sample. Tomb 1 of the Abbey of San Colombano in Bobbio (PC). Degree Course in Biotechnology, University of Insubria, 2024, (discussion and proclamation July 26, 2024).
9. Traces of respiratory pathologies on an osteological sample from a late medieval context. Degree Course in Biotechnology, University of Insubria, 2024, (discussion and proclamation July 26, 2024).
10. Anthropological and paleopathological analysis of two infants from the site of Santa Maria Maggiore in Vercelli, Degree Course in Biotechnology, University of Insubria, 2024, (discussion and proclamation 25 March 2024).
11. From the reconstruction of the biological profile to scientific dissemination. A 360° bioarchaeological experience, Degree Course in Biotechnology, University of Insubria, 2024, (discussion and proclamation March 25, 2024).
12. Reconstruction of the biological profile of a medieval sample from the site of San Giorgio in Sarigo (Varese), Degree Course in Biotechnology, University of Insubria, 2023 (discussion and proclamation October 19, 2023).
13. Diagnosis of rickets and scurvy at the site of Santa Maria Maggiore di Vercelli. Anthropological and paleopathological analysis of an osteoarchaeological sample from childhood, Degree Course in Biotechnology, University of Insubria, 2023 (discussion and proclamation October 19, 2023).
14. Anthropological and paleopathological analysis of osteological samples and reconstruction of the biological profile, Degree Course in Biological Sciences, University of Insubria, 2023 (proclamation 20 September 2023).
15. Reconstruction of the biological profile of a medieval skeletal sample from the church of San Vittore in Oggiona-Santo Stefano (Varese), Degree Course in Biotechnology, University of Insubria, 2023 (discussion and proclamation 24 March 2023).
16. Bioarchaeological analysis of the funerary area of the church of San Michele in Insula in Trino (VC). Degree Course in Biological Sciences, University of Insubria, 2023 (proclamation February 21, 2023).
17. Taphonomic analysis of the skeletal remains of the Franciscans of the Putridarium of Azzio (VA). Degree Course in Biological Sciences, University of Insubria, 2021 (proclamation December 17, 2021).
18. Beyond macroscopic analysis. Biomedical techniques in Physical Anthropology: verification of micronutrient deficiency in a medieval human sample from the church of SS. Eusebio and Antonio di Azzio (VA). Biomedical Laboratory Technician, University of Insubria, 2021 (discussion and proclamation November 25, 2021).
19. The Crypt of the Nuns of the Santissima Annunziata, Valenza (AI): Anthropological and Paleopathological Analysis of a Bioarchaeological Sample Compromised by Time, Degree Course in Biological Sciences, University of Insubria, 2021.
20. The crypt of the church of S. Maria Maggiore in Vercelli: analysis of cranial indicators, traumas and paleopathology of a bioarchaeological context in a secondary position. Degree Course in Biotechnology, University of Insubria, 2021.
21. "The ossuary IIa of the cemetery of the church of Santa Maria Maggiore in Vercelli. Morphological analysis of non-metric characters, occupational

stress and dental pathologies of an osteological sample of the modern age". University of Insubria, 2021.

22. The study of common ossuaries in Osteoarchaeology. A proposal for data collection functional to the analysis of finds from contexts in a secondary location. Degree Course in Biotechnology, University of Insubria, 2021.
23. Bioarchaeological analysis of the osteological finds from the crypt of the church of Santa Maria Maggiore in Vercelli. Degree Course in Biotechnology, University of Insubria, 2021.
24. Diagenesis: role of the environment on bone conservation. Degree Course in Biotechnology, University of Insubria, 2021.
25. Reconstruction of the biological profile of five Iron Age skulls preserved in the archaeological museum of Villa Mirabello, Varese. Degree Course in Biological Sciences, University of Insubria, 2021.
26. Comparative analysis of mass grave recovery and personal identification protocols, from the First World War to the Arab Spring. Degree Course in Biotechnology, University of Insubria, 2020.
27. Analysis of biomechanics in the various stages of human evolution. Exercise Science Course, School of Medicine, University of Insubria, 2020
28. Paleoradiological analysis of human remains. The application of computed tomography in archaeological cemetery contexts. Degree Course in Medical Radiology Techniques for Imaging and Radiotherapy, School of Medicine, University of Insubria, 2019.

TUTORING FOR UNIVERSITY AND HIGH SCHOOL STUDENTS

Support activity and/or co-supervisor of the following degree theses in Medicine and Surgery, in Physiotherapy and in Biotechnology at the University of Insubria

1. The role of dental analysis in Physical and Forensic Anthropology. A case study from a medieval and post-medieval cemetery in north-western Lombardy. Degree in Dental Hygiene, University of Insubria, 2021
2. Paleopathological and anthropological analysis of the osteological and mummified finds of the crypt of Santa Maria Maggiore in Vercelli. Application of the identification methods on a sample of the modern age, 2021.
3. Biological profile and paleopathological diagnosis: a comparison between past and present, 2020.
4. Sarigo San Giorgio tomb 31. Anthropological and paleopathological analysis of an osteoarchaeological sample, 2019.
5. Birthing markers in an osteoarchaeological sample. Morphological analysis of vaginal birth lesions on human pelvic bones, 2019.
6. Studying Human Skeletal Remains: From Physical Anthropology to Forensic Medicine, 2019.
7. The Valganna skull: anthropological and paleopathological investigation, 2019.
8. Sokushinbutsu: a first-hand experience on the mummies of Yamagata prefecture. Survey on the ancient Japanese tradition of self-mummification, 2019.
9. Cranial Trepanation in Pre-Columbian Peoples of Peru, 2019.
10. The construction of the biological profile in the identification of human remains: practical application in forensic anthropology, 2018.
11. Paleopathological observations on tumors in antiquity. Evidence in osteoarchaeological specimens, 2018.
12. New medico-legal methodologies for the identification of human skeletal remains, 2018.

13. Signs of infectious pathology in skeletal remains from antiquity, 2017.
14. New methods of identification in forensic medicine in the study of skeletal remains, 2017.
15. Pathological evidence on the bones of the human skeleton in a medieval sample from Cittiglio, 2017.
16. Osteomas: Investigations of a Medieval Skeletal Sample, 2017.
17. Forensic anthropological investigation in a medieval burial ground. Application of medico-legal methods on an osteological sample, 2017.
18. Paleopathological and anthropological identification techniques on osteo-archaeological finds with detection of osteomas, 2017.
19. Paleoradiological investigations on ancient human remains in the province of Varese, 2016.
20. The skeleton of Azzio: forensic recovery and medico-legal investigations in a case of concealment of a corpse, 2016.
21. New perspectives in the identification investigations of incinerated human remains, 2015.
22. A case of cranial trepanation on a medieval skeleton found in the church of San Pancrazio in Vedano Olona?, 2015.
23. Medico-legal methods for the recognition of skeletal remains, 2015.
24. Methodologies of forensic medicine and imaging diagnostics in the study of ancient human remains. A case study of the Laboratory of Physical and Molecular Anthropology, 2015.
25. The integuments of the mummified remains of the Sacro Monte di Varese, 2015.
26. Forensic medical identification methodologies and anthropological analysis of ancient skeletal remains, 2014.
27. Paleonutritional survey on an early medieval population. Study on the skeletons and in particular on the teeth of the necropolis of the province of Varese, 2014.
28. Traumatic lesions on ancient skulls. Investigations on a case study of the Laboratory of Physical and Molecular Anthropology, 2014.
29. Anthropological analysis of ancient human remains and application of identification methods, 2013.

OCTOBER 1, 2018 - PRESENT

Internship tutor in Archaeobiology -**Laboratory of Archaeobiology and Forensic Biotechnology**-

Bachelor's Degree Course in Biotechnology and Biological Sciences

University of Insubria

MARCH 1, 2018 - PRESENT

Tutor for laboratory activities of Archaeological Research Methodology

Bachelor's Degree in Communication Sciences and Master's in Communication Sciences and Techniques

University of Insubria

1ST-30TH JANUARY 2018

Tutor School -work alternation project "**Osteoarchaeology and Paleopathology**"-Physical Anthropology Laboratory of the San Biagio site in Cittiglio (VA)-

Liceo Sereni di Luino³ ^ B associated Laveno

DOCUMENTED TRAINING OR RESEARCH ACTIVITIES AT QUALIFIED ITALIAN OR FOREIGN INSTITUTES

8 NOVEMBER 2017

Lecturer in *Paleopathology at the course of History of Medicine* Universitetit Të Mjekësisë, Tiranë

FEBRUARY 20, 2018 TO DATE Research activities within the International Research Office for Bioethics Education of the Unesco Chair-Italian Unit

MARCH 1, 2016 TO DECEMBER 2021 **Coordinator of the Research Center in Osteoarchaeology and Paleopathology** of the Department of Biotechnology and Life Sciences, University of Insubria.

JANUARY-JUNE 2015 Research grant at the University of Insubria, **Bioarchaeology. New frontiers of research**

4 OCTOBER 2011- 4 DECEMBER 2011 Research activity at the Ludwig-Maximilians-Universität München, Institut für Assyriologie und Hethitologie -**Junior Researcher Program-CoopertInt-**

RESEARCH PROJECT GRANTS

DECEMBER 2025- PRESENT **Principal Investigator** (Department of Biotechnology and Life Sciences ,University of Insubria, Lead partner) of the Project **PatrimonioVivo. Bioarcheologia e Tecnologie Interattive per la Conservazione Storica. INTERREG VI-A Italy-Switzerland Cooperation Programme 2021–2027**
Italian Contribution: € 725.000
Lead partner: Department of Biotechnology and Life Sciences ,University of Insubria (€ 625.000)
Partner: Provincia di Varese (€ 100.00)
Swiss contribution: CHF 261.00

DECEMBER 2025- PRESENT Lead partner: SUPSI - Scuola Universitaria della Svizzera Italiana
Partner: Stelex Software, Handy System
Principal Investigator of the Project **PIETAS. Pratiche Isotopiche per l'Esplorazione di Tracce Alimentari e Sociali. Studio bioarcheologico dell'antica popolazione sepolta nel cimitero di Santa Maria Maggiore di Vercelli.**
Fondazione Cassa di Risparmio di Vercelli, Contributo Erogazioni Ordinarie 2025

DECEMBER 2025- PRESENT Beneficiary organization: University of Insubria
Contribution: € 25.000
Principal Investigator of the Project **FRAILITY. From Stress to Frailty: Long-Term Health Trajectories in the BioArchivio Insubre (10th–17th c.).**
Bando per l'erogazione del Fondo per ricercatori a tempo determinato - esercizio 2025- Department of Biotechnology and Life Sciences, University of Insubria.
Contribution: € 20.000

MAY 2025- PRESENT **Principal Investigator** of the Project **VITA. Valorizzazione e Studio della Cripta della SS. Annunziata di Valenza: Indagine, Tutela e Accessibilità di un Patrimonio Unico.**
Fondazione Cassa di Risparmio di Alessandria
Beneficiary organization: University of Insubria
Contribution: € 20.000

SEPTEMBER 2025- PRESENT **Responsible for the research activity Scientific Responsibility of Anthropological Study** (for University of Insubria) -for the renewal of a research grant- on the archaeological heritage of the Municipality of Varese as part of the agreement between the Municipality of Varese and the Department of Biotechnology and Life Sciences of the University of Insubria.
Within the collaboration with the Archaeological Museum of Villa Mirabello in Varese, a laboratory has been set up for the study of bio-archaeological finds from some archaeological sites in the province of Varese and in storage at the Museum.
Contribution: €13.000

DECEMBER 2024- PRESENT **Principal Investigator** of the Project **VIVI. Experiencing the Viggù cemetery. Enjoy funeral spaces differently.** Cariplo Foundation. University of Insubria
Contribution: € 170.000
Lead partner: University of Insubria

DECEMBER 2024- PRESENT	<p>Partners: Municipality of Viggiù, Association of Friends of the Viggiù Civic Museums, Associazione Naturalis Insubria APS</p> <p>Principal Investigator of the Project MUMMIA. Unified Methodologies for the Multidisciplinary Study and Archaeological Identities. The site of Santa Maria Maggiore. Ordinary disbursements 2023, "Research and Education", Cassa di Risparmio di Torino Foundation.</p>
MAY 2024- PRESENT	<p>Beneficiary organization: University of Insubria</p> <p>Contribution: € 25.000</p> <p>Principal Investigator of the Project URNA. Anthropological digitalization of Urns from a Roman Necropolis.</p>
JUNE 2024- PRESENT	<p>Fondazione Cassa di Risparmio di Vercelli</p> <p>Beneficiary organization: University of Insubria</p> <p>Contribution: € 4.000</p>
DECEMBER 2023- PRESENT	<p>Principal Investigator of the Project of the grant proposal funded within the "Call for proposals for funding of 30 annual post-doctoral university research grants - financial year 2024", University of Insubria</p> <p>Contribution: € 19.367.00</p>
JUNE 2023- PRESENT	<p>Participation in Project P.E.S.T.E Exploration and Protection Project of the Historic Lazzaretto of the Epidemic-Ticino Olona Community Foundation</p> <p>Lead partner: Osteoarc Association</p> <p>Partners: University of Insubria</p> <p>Contribution: € 7,000.00</p>
MARCH 2023- PRESENT	<p>Principal Investigator of the Project <i>Innovative approaches in scientific research applied to cultural heritage: Bioarchaeospeleology and virtual mummiology</i>. The site of Santa Maria Maggiore di Vercelli, Ordinary disbursements 2023, "Research and Education", Fondazione Cassa di Risparmio di Torino.</p>
MARCH 2023- AUGUST 2025	<p>Beneficiary organization: University of Insubria</p> <p>Contribution: € 25.000</p> <p>Principal Investigator (for University of Insubria) of the Project Bioarchaeology for all in community places, Valore alla Cultura 2023 call, Fondazione Cassa di Risparmio di Vercelli. Lead body: University of Insubria.</p> <p>Contribution: € 4.000</p>
JUNE 2022 - PRESENT	<p>Scientific manager of the research activity (for University of Insubria), with the coordination of a research grant, on the archaeological heritage of the Municipality of Varese as part of the agreement between the Municipality of Varese and the Department of Biotechnology and Life Sciences of the University of Insubria. Within the collaboration with the Archaeological Museum of Villa Mirabello in Varese, a laboratory has been set up for the study of bioarchaeological finds from some archaeological sites in the province of Varese and in storage at the Museum.</p> <p>Contribution: € 26.000</p> <p>Principal Investigator of the Project (for University of Insubria)- <i>The site of Santa Maria Maggiore in Vercelli: a bioarchaeological context for research and training</i>, Ordinary Grants Call 2022, "Research and Education", Fondazione Cassa di Risparmio di Torino.</p> <p>Contribution: € 25.000</p> <p>Lead partner: University of Insubria</p> <p>Partner: University of Eastern Piedmont</p> <p>Principal Investigator of the Project <i>The site of San Michele in Insula di trino. New approaches for the valorization of bioarchaeological contexts</i>, Bando-Restauri con Arte, Fondazione Cassa di Risparmio di Vercelli.</p> <p>Contribution: € 4.000</p> <p>Lead partner: Parish of Trino</p> <p>Partners: University of Insubria</p>
JANUARY 2022-FEBRUARY 2023	<p>Responsible for the research activity (for University of Insubria)- on the archaeological heritage of the Municipality of Varese, with the coordination of a</p>

	<p>research grant, as part of the agreement (third renewal) between the Municipality of Varese and the Department of Biotechnology and Life Sciences of the University of Insubria.</p> <p>Within the collaboration with the Archaeological Museum of Villa Mirabello in Varese, a laboratory has been set up for the study of bio-archaeological finds from some archaeological sites in the province of Varese and in storage at the Museum.</p> <p>Contribution: €13.000</p>
<p>JULY 2021- PRESENT</p>	<p>Principal Investigator of the Project <i>The crypt of Santa Maria Maggiore in Vercelli. An integrated approach to research and training in the field for the study of human remains</i>, admitted for funding based on competitive calls - Call for Ordinary Disbursements 2021, CRT Foundation.</p> <p>Beneficiary organization: University of Insubria</p> <p>Contribution: €25.000</p>
<p>JANUARY 2020- PRESENT</p>	<p>Principal Investigator of the Project <i>The landscapes of Valcuvia. Environmental redevelopment through an archaeological path: enhancement, protection and use</i>, admitted for funding on the basis of competitive tenders - Provincial Emblematic Notice 2019, Cariplo Foundation (Organization: University of Insubria).</p> <p>The project promotes the musealisation of three bioarchaeological sites currently under study through archaeological recovery, the anthropological and paleopathological study of human remains and the creation of an archaeological path aimed at enhancing the research areas and disseminating the history of the populations of the past.</p> <p>Contribution Cariplo: €128.000</p> <p>Lead partner: University of Insubria</p>
<p>DECEMBER 2020-DECEMBER 2021</p>	<p>Partners: Parish of Cittiglio, Municipality of Cittiglio, Municipality of Caravate</p> <p>Responsible for research (for University of Insubria) on the archaeological heritage of the Municipality of Varese as part of the agreement (third renewal) between the Municipality of Varese and the Department of Biotechnology and Life Sciences of the University of Insubria.</p> <p>Within the collaboration with the Archaeological Museum of Villa Mirabello in Varese, a laboratory has been set up for the study of bio-archaeological finds from some archaeological sites in the province of Varese and in storage at the Museum.</p> <p>Contribution: €13.000</p>
<p>SEPTEMBER 2019-SEPTEMBER 2020</p>	<p>Coordination of the study and research activity (for University of Insubria) on the archaeological heritage of the Municipality of Varese as part of the agreement between the Municipality of Varese and the Department of Biotechnology and Life Sciences of the University of Insubria.</p> <p>Contribution: €13.000</p>
<p>SEPTEMBER 2018-SEPTEMBER 2019</p>	<p>Responsibility for the anthropological and paleopathological study of the research project (for University of Insubria): "Study and enhancement of the churchyard of San Biagio in Cittiglio: archaeological investigation of ancient burials and anthropological and paleopathological analysis of human remains. Last phase", (Parish of San Giulio Prete di Cittiglio, University of Insubria), admitted for funding based on competitive calls - Call for art and culture 2018, Community Foundation of Varesotto.</p> <p>Contribution: €5.000</p>
<p>NOVEMBER 2018</p>	<p>Lead partner: Parish of Cittiglio</p> <p>Partners: University of Insubria</p> <p>Responsibility of Anthropological Study (for University of Insubria)- Research project "Archeogenomics in Lombardy: a territorial heritage to be valorized. From the excavation of finds to the study of DNA". University of Pavia and University of Insubria.</p> <p>Contribution Fondazione Cariplo: € 100.000</p> <p>Lead partner: University of Pavia (€75.000)</p> <p>Partners: University of Insubria (€ 25.000)</p>
<p>MAY 2018-AVRIL 2019</p>	<p>Coordination of the study and research activity (for University of Insubria) on the archaeological heritage of the Municipality of Varese as part of the agreement</p>

between the Municipality of Varese and the Department of Biotechnology and Life Sciences of the University of Insubria.

Contribution: 13.000 €

OCTOBER 2017-2018

Responsibility of the anthropological and paleopathological investigation (for University of Insubria) **of the finds in the research project** funded on the competitive tender - Lombardy Region 2017: Archaeological areas and sites registered or candidate on the UNESCO list: "Study and enhancement of the churchyard of San Biagio in Cittiglio: investigation archaeology of ancient burials and anthropological and paleopathological analysis of human remains (third phase of study)",

Beneficiary organization: University of Insubria

Contribution: €22.500

MAY 14, 2017 - OCTOBER 1, 2017

Responsibility of the anthropological research (for University of Insubria) **on the research project** funded on the competitive tender - Call 2016 Art and Culture, Community Foundation of Varesotto: "Study and enhancement of the churchyard of the Church of San Biagio in Cittiglio (VA): archaeological investigation of the ancient burials and anthropological and paleopathological analysis of human remains (second phase of study)",

Lead partner: Parish of San Giulio Prete di Cittiglio

Partners: University of Insubria

Contribution: €13.000

1ST MAY 2016 - 1ST OCTOBER 2016

Responsibility for anthropological and paleopathological research (for University of Insubria) funded by competitive tender, 2017 Call for Art and Culture, Community Foundation of Varese: "The cemetery area of the medieval church of Sant'Agostino di Caravate: study and enhancement of the site. Archaeological investigation of ancient burials and anthropological and paleopathological analysis of human remains".

Lead partner: Study Center for Valcuvia and Upper Varesotto" G. Peregalli

Partners: University of Insubria

15 NOVEMBER 2017-NOVEMBER 2018

Responsibility of the paleopathological research (for University of Insubria) **of the research project** financed on the competitive tender, Call 2015 Art and Culture, Community Foundation of Varesotto: "Study and enhancement of the churchyard of the Church of San Biagio in Cittiglio (VA): archaeological investigation of the ancient burials and anthropological and paleopathological analysis of human remains.

Lead partner: Parish of San Giulio Prete di Cittiglio

Partners: University of Insubria

Contribution: €10.000

1ST JULY 2015- 1ST DECEMBER 2016

Scientific responsibility of the paleopathological research (for University of Insubria) **of a context of funerary archaeology in the project** financed by competitive tender, Call 2014 Art and Culture, Community Foundation of Varese: "Archaeological and anthro-paleopathological study of the human remains of the Crypt of the Franciscan friars of Azzio (VA), Second phase of study".

Beneficiary organization: University of Insubria

Contribution: €6.000

1ST OCTOBER 2013- 1ST MAY 2014

Scientific responsibility of the paleopathological research (for University of Insubria) **of a context of funerary archaeology in the research project** funded on the competitive tender, Call 2013 Art and Culture, Community Foundation of Varesotto: "Archaeological and anthro-paleopathological study of the human remains of the Crypt of the Franciscan friars of Azzio (VA)".

Beneficiary organization: University of Insubria

Contribution: € 5.000

NOVEMBER-DECEMBER 2011

CoperInt University of Verona-Moncao- Assignment of a 2-month research assignment at la Ludwig-Maximilians-Universität München, Institut für Assyriologie und Hethitologie. Junior Researcher Program-CoopertInt- Università degli Studi di Verona

Contribution: € 4.000

SCIENTIFIC RESPONSIBLE FOR
THE ACTIVATION OF UNIVERSITY
RESEARCH SCHOLARSHIPS

NOVEMBER 2025

MARCH 2025

Scientific responsible for the activation of a 14-months "The Old Cemetery of Viggiù. Anthropological and paleopathological analysis of the osteoarchaeological finds for the site's museum content". Project Fund "LIC011VIVIViggiù_FondazioneCariplo" - "VIVI. Living the cemetery of Viggiù. Using funerary spaces differently. DBSV-BR2025-15, University of Insubria.

MARCH 2025

Scientific responsible for the activation of a 6-months scholarship - amount of the scholarship € 9,000.00 - "Virtual Bioarchaeology and Anthropology. Mapping of bioarchaeological areas and analysis of osteological finds at the old cemetery of Viggiù". Project Fund "LIC011VIVIViggiù_FondazioneCariplo" - "VIVI. Living the cemetery of Viggiù. Using funerary spaces differently", DBSV-BR2025-03, University of Insubria.

APRIL 2024

Scientific responsible for the activation of a 12-months scholarship - amount of the scholarship € 15,000.00 - Project Fund LIC010 CRT Foundation. Ordinary grants 2024 - "Anthropological and paleopathological analysis of the osteological finds in primary and secondary deposits of the bioarchaeological site of Santa Maria Maggiore in Vercelli", University of Insubria.

JANUARY 2024

Scientific coordinator of the activation of a 4-months scholarship - amount of the scholarship is € 4,400.00 - Project "Innovative approaches in scientific research applied to cultural heritage: Bioarchaeospeleology and Virtual Mummiology. The site of Santa Maria Maggiore di Vercelli". Project Fund LIC007 Fondazione CRT2024-Fondazione Cassa Risparmio Torino - Call for Ordinary Grants 2023, University of Insubria.

JANUARY 2024

Scientific manager of the activation of a 4-months scholarship - amount of the scholarship is € 3000.00 - Project Fund "LIC008FondazioneCRVercelli - LICATA - Fondazione Cassa Risparmio Vercelli - Call for proposals Value to Culture "Bioarchaeology for all in community places".

Title: "Disseminating biological anthropology through the presentation of the bioarchaeological results of the investigations conducted on the site of San Michele in Insula di Trino. DBSV-BR2024-02, University of Insubria.

JUNE 2023

Scientific responsible for the activation of a scholarship for 7-months research activities - amount 8,750.00 - Project Fund LIC007FondazioneCRT2024 - LICATA - Fondazione Cassa Risparmio Torino - Call for Ordinary Grants 2023 - Project "Innovative approaches in scientific research applied to cultural heritage: bioarchaeospeleology and virtual mummiology. The site of Santa Maria Maggiore di Vercelli"

JUNE 2023

Title: "Bioarchaeospeleology and virtual mummiology. Anthropological and tomographic analysis of the finds from the ossuary chambers of the site of Santa Maria Maggiore di Vercelli" DBSV_BR2024_03, University of Insubria.

Scientific manager renewal of a scholarship for 3-months research activity - Amount € 3,250.00 - Funds of the LIC001 Provincial Emblematic Project CARIPLO2019 - Cariplo Foundation project "The landscapes of Valcuvia. Environmental redevelopment through an archaeological route: enhancement, protection and use".

FEBRUARY 2023

Title: Creation of an archive for the collection of osteological finds from the archaeological route of Valcuvia" (DBSV-BR2022-015), University of Insubria

Scientific responsible for the activation of a scholarship for 24-months research activities - Amount of the scholarship € 26,000.00 - Project funds "LIC002COMUNEVA" - Licata - Agreement Municipality of Varese - Study and research activity project aimed at a scholarship on the "Archaeological heritage of

the Civic Museums of the Municipality of Varese".

NOVEMBER 2022	<p>Title: "Cataloguing of the archaeological heritage granted in deposit by the State to the Civic Museums of Villa Mirabello - Municipality of Varese" (DBSV-BR2023-12), University of Insubria.</p> <p>Scientific coordinator of the activation of a scholarship for 9-month research activity - Amount of the scholarship € 11,000.00 - Funds of the project LIC006FondazioneCRT2023 - "The site of Santa Maria Maggiore di Vercelli a bioarchaeological context of research and training" - Fondazione Cassa di Risparmio di Torino.</p>
JULY 2022	<p>Title: Anthropological and paleopathological analysis of the osteoarchaeological finds of the site of Santa Maria Maggiore di Vercelli", DBSV-BR2023-03, University of Insubria.</p> <p>Scientific responsible for the activation of a scholarship for 6-months research activities - Amount of the scholarship is € 6,500.00 - Funds of the LIC001 Provincial Emblematic Project CARIPLO2019 - Cariplo Foundation project "The landscapes of Valcuvia. Environmental redevelopment through an archaeological route: enhancement, protection and use.</p>
JANUARY 2022	<p>Title: "Creation of an archive for the collection of osteological finds from the archaeological route of Valcuvia", DBSV-BR2022-015, University of Insubria</p> <p>Scientific co-responsible - together with Professor Jutta Maria Birkhoff - for the renewal of a 12-months research grant - Amount € 19,367.00 - Funds of the LIC001 Provincial Emblematic Project CARIPLO2019 - Cariplo Foundation project "The landscapes of Valcuvia. Environmental redevelopment through an archaeological route: enhancement, protection and use", University of Insubria.</p> <p>Title: "The Crypt of Azzio (VA), a bioarchaeological approach. Studying a community from bones", University of Insubria.</p> <p>Responsible for the activation of university research scholarships, title: Anthropological, paleopathological and conservation analysis of the osteoarchaeological finds from the site of San Biagio in Cittiglio. Investigations aimed at the museumization of the entire bioarchaeological context. DBSV-BR2022-001, University of Insubria.</p>
JANUARY 2022	<p>Responsible for the activation of university research scholarships, title: Cataloguing of the archaeological heritage granted on deposit by the State to the Civic Museums of Villa Mirabello-Municipality of Varese, DBSV-BR2022-002, University of Insubria.</p>
JANUARY 2021	<p>Responsible for the activation of university research scholarships, title: Cataloguing of the archaeological heritage granted in deposit by the State to the Civic Museums of Villa Mirabello - Municipality of Varese, DBSV- BR2020- 010, , University of Insubria.</p>
JANUARY 2021	<p>Responsible for the activation of university research scholarships, title: Anthropological study of the bone remains of the ossuary of the Crypt of Azzio in Valcuvia (Varese)", DBSV-BR2021-001, University of Insubria.</p>
OCTOBER 2020	<p>Responsible for the activation of university research scholarships, title: Bioarchaeology. Analysis of ancient human remains of North Western Lombardy, DBSV-BR2020-004, University of Insubria.</p>
DOCTORAL TEACHER GUIDE:	
NOVEMBER 2024-PRESENT	<p>PhD Candidate Doctorate in Clinical and experimental medicine and medical humanities: Nicol Rossetti, Anthropological analysis of the human remains from the church of San Martino and the old cemetery of Viggìu between the 16th and early 20th centuries</p>
NOVEMBER 2025-PRESENT	<p>PhD Candidate Doctorate in Clinical and experimental medicine and medical humanities Arianna Vanni, A multidisciplinary approach to the bioarchaeology of the Crescentino necropolis. Investigations into health, environment, and funerary practices in antiquity.</p>

MENTOR ROLE

DECEMBER 2024- PRESENT

Mentor role in the project "Pediatric conditions in tough times: Bioarchaeological and Biochemical analysis between nutrition, stress, and disease" funded by Fondazione Cariplo - Giovani Ricercatori 2024, Principal investigator: Chiara Tesi

ORGANIZATION, DIRECTION AND
COORDINATION OF NATIONAL AND
INTERNATIONAL RESEARCH
GROUPS
JULY 2021

Assignment of scientific consultancy for anthropological investigations on human remains that emerged during the excavation phases of the pit for the new lift in our Negrone palace - c.so Cavallotti n. 4 - headquarters of the Novara Civic Library as part of an intervention aimed at archaeological protection and the dissemination of results through the display and publication of data on information panels of the Novara Civic Library, on its institutional site and on the site of the Municipality of Novara.

JUNE 2018-SEPTEMBER 2024

Responsible for the University of Insubria of the Convention for collaboration in research projects with the Research Center on the Eastern Desert (CE.R.D.O)

The agreement aims to integrate the archaeological research of the site of Adulis in Eritrea conducted by the CE.R.D.O. with the skills of physical anthropology and paleopathology. The activities in the agreement have objectives in the field of training, cooperation, cultural promotion, and scientific dissemination as well as conducting research on ancient history, archeology, anthropology, ethnography and architecture.

1ST OCTOBER 2018 TO 1ST
FEBRUARY 2019

Participation in the anthropological and paleopathological study of the mummified finds from the Mainoni collection of the Archaeological Museum of Erba.

The paleoradiological analysis has the aim of strengthening the dissemination of scientific research and optimizing the enhancement of anthropological assets through museum exhibits.

FEBRUARY 20, 2018 - PRESENT

Co-direction of the Education and Ethics Research Group in Scientific Museums for the International Research Office for Bioethics Education of the UNESCO Chair-Italian Unit, aimed at promoting the dissemination of anthropological knowledge also through the creation and development of inter and trans networks -disciplinary for the conservation and enhancement of anthropological assets.

1ST JULY 2015- 1ST SEPTEMBER
2015

Responsibility for the study of the osteoarchaeological sample of the Crypt of Azzio for the University of Insubria from the Ministry of Cultural Heritage and Activities and Tourism, Archaeological Superintendence, Fine Arts and Landscape for the provinces of Como, Lecco, Monza- Brianza, Pavia, Sondrio, Varese.

SEPTEMBER 2015

Coordination of the anthropological and paleopathological investigation for the University of Insubria of the **osteoarchaeological finds of the Church of San Giorgio in Sarigo (VA)** with the aim of contextualizing the cemetery site, both from an anthropological and a historical point of view.

JANUARY 2012- PRESENT

Responsible for the paleopathological study of the finds from the excavations of some sites in the province of Varese for the Ministry of Cultural Heritage and Activities and Tourism, Archaeological Superintendence, Fine Arts and Landscape for the provinces of Como, Lecco, Monza-Brianza, Pavia, Sondrio, Varese.

4 OCTOBER 2011 - 4 DECEMBER 2011	<p>Project owner admitted to funding under the Junior Researcher Program "CooperInt" 2010 edition, type B1 for study and research activities at the Institut für Assyriologie und Hethitologie of the Ludwig-Maximilians-Universität München.</p>
OCTOBER 2017- PRESENT	<p>Contribution: 4,000 € Participation in the inter-university research group "Ethical issues in the study and museumization of human remains from archaeological excavations" (University of Genoa-University of Insubria).</p>
JULY 7, 2015- PRESENT	<p>Participation in research activities in the inter-university group -University of Genoa, University of Rome La Sapienza, University of Verona and University of Insubria- for the project "Cognitive survey on the perception of bioethics teaching by the university student population".</p>
1ST SEPTEMBER 2014 TO 1ST DECEMBER 2015	<p>Participation in the study of the mummified finds of the Sacro Monte site in Varese through a multidisciplinary approach and a variety of skills (radiological, anthropological and paleopathological) (University of Insubria)</p>
NOVEMBER 2014- PRESENT	<p>Collaboration with the Diagnostic Imaging Unit of the Gaetano and Piera Borghi Foundation of Brebbia (Varese) for the identification and paleopathological study of ancient human remains as part of the bioarchaeological study of osteoarchaeological, mummified and cremation finds of the Research Center in Osteoarchaeology and Paleopathology, University of Insubria.</p>
2013	<p>Participation in the study of anthropological sample of the Grotta del Tufo in Valganna (VA) at the Archaeological Museum of Villa Mirabello. In particular, a skull deposited in the warehouses of the Museum was examined both from a physical anthropological point of view and through historical-archival investigations aimed at clarifying the history of the discovery of the find. Today the skull is exhibited in the prehistory section of the museum.</p>
SEPTEMBER 2015	<p>Participation in anthropological and paleopathological research activities in the recovery and study of bone materials in various archaeological sites in collaboration with the Archaeological Superintendency of Lombardy.</p>
2010-2011	<p>Participation as an archaeologist in activities of research, excavation and assistance in private client sites fulfilling the prescription of the Superintendency for Archaeological Heritage of Piedmont at the sites of: Medieval Church X centur of Castelletto Cervo (BI); Magnonevolo, Gattinara, Masserano and Cameri.</p>
JUNE 2010	<p>Participation in the archaeological investigation activity at the Roman Amphitheater site of Vercelli as part of an archaeological protection intervention.</p>
JANUARY 2008- JANUARY 2009	<p>Participation -as part of the university internship in archaeological excavation activities at some Roman and medieval sites in Asti: necropolis of San Secondo, Palazzo Malabaila and Palazzo Michelerio.</p>
MANAGEMENT OR PARTICIPATION IN EDITORIAL BOARD OF JOURNALS	
FEBRUARY 2023- PRESENT	<p>Editor in Chief of Journal of Bioarchaeological Research</p>
JANUARY 2021- PRESENT	<p>Editor in Chief of the <i>Medicina Historica</i> Journal. Studies in History, Paleopathology, Bioethics and Anthropology of Health. Journal indexed on Scopus https://mattioli1885journals.com/index.php/MedHistor, Mattioli 1885 Publishing House.</p>
DECEMBER 2021	<p>Curator of a special issue of <i>Medicina Historica</i> dedicated to museum collections in the medical history and anthropology of health.</p>
OCTOBER 2017- PRESENT	<p>Member of the Editorial Board of the "Austin Anthropology Journal".</p>
JULY 2017- PRESENT	<p>Member of the Editorial Board of the "GSL Journal of Forensic Research".</p>

JANUARY 2014-2017	Member of the editorial board of the "Journal of the History of Medicine", official organ of the Italian Society of the History of Medicine.
NOVEMBER 2017- PRESENT	Member of the scientific committee of the series "The body and the soul" of Mimesis Edizioni.
JANUARY 2013	Participation in the drafting of a special issue of the magazine of the Varese Chamber of Commerce, "Lombardia Nord Ovest", Special Varese Museums on the Net, with a chapter entitled "Museums between Archeology and Science" with the following contributions: Besano Civic Museum of Fossils - paleontological museum, Isolino Virginia museum with archaeological area, Necropolis of Caravate, Archaeological Park and Church of Santa Maria, Museum of the Galleratese Society for Patri Studies, Archaeological Area of Monsorino and Antiquarium, Sesto Calende Civic Archaeological Museum, Civic Archaeological Museum and section of the Risorgimento of Villa Mirabello.

COMMUNICATIONS AT
NATIONAL AND
INTERNATIONAL
CONFERENCES

20-23 November 21st, 2024

Speaker at 16th annual conference of the Society for the Study of the Childhood in the Past Nov. 20-23, 2024, Pessac (France)

M. Licata, Tesi C, Fusco R., Children of the past. The bioarchaeological discoveries of Santa Maria Maggiore in Vercelli

22 June 2024

Speaker at the IX National Meeting GIPaleo–Italian Paleopathology Group.

Title presentation: The bioarchaeological context of Santa Maria Maggiore Vercelli. Analysis of primary and secondary depositions and experimentation of technologies for the digital documentation of osteological recovery.

Authors: Licata M, Vanni A, Rossetti N, Garanzini F, Destefanis E, Taglioretti R, Mazzucchi A, Tesi C, De Luca D, Fusco R

November 11, 2023

Organizer and speaker of the conference Inauguration of the Bioarchaeology Paths in Valcuvia. San Biagio in Cittiglio, Crypt of the Church of Saints Eusebio and Antonio di Azzio, Sant'Agostino in Caravate and Insubre Bioarchive.

28-30 June 2023

Speaker at the Heritages-Prague conference. Past and Present - Built and Social.
Title presentation: "The musealization of bioarchaeological sites. Our next challenge"
Czech Technical University in Prague.

May 30, 2023

Speaker at the 21st Annual International Conference on History & Archaeology: From Ancient to Modern 29-31 May & 1 June 2023, Athens, Greece.
Title presentation: "Women and Death. Bioarchaeology Reveals the Condition of Women in the Medieval and Post Medieval Ages"
Athens Institute for Education and Research

25 March 2022

Speaker at "Jornades de Joves en Investigació Arqueològica"
Title: *Bioarchaeology in North Italy. Rickets: not only a post-Industrial Revolution disease, comparison between a northeast and northwest Italian archaeological site* (co authors: Larentis O, Pangrazzi C, Licata M, Gorini I, Ciliberti R, Tesi C, Fusco R, Tonina E)
University of Alicante

27 November 2021

Speaker at "Bioarchaeological updates. New acquisitions from the Varese area"
Title: *Research experiences in osteoarchaeology in the Varese area. The study of the remains human beings in university teaching*
Sala Montinari, Varese

19 November 2021

Speaker at "the Day of Human Remains Studies and Archaeology: The Church of Santa Maria Maggiore in Vercelli opens its doors to Research"
Title: *Our experience in osteoarchaeology*
Archdiocese, Vercelli

19 November 2021

Speaker at "the Day of Human Remains Studies and Archaeology: The Church of Santa Maria Maggiore in Vercelli opens its doors to Research"
Title: *The first results of the anthropological analyses on the remains from the crypt of Santa Maria Maggiore in Vercelli* (co authors: Polidoro F, Guzzetti S)
Archdiocese, Vercelli

18-19 June 2021

Speaker at the "6rd National Meeting of the Italian Group of Paleopathology"
Title: *Paleopathology and Osteoarchaeology in the province of Varese*

18-19 June 2021
