

Elena Cristina Rada

Graduated in Environmental Engineering in 2002 in the Polytechnic University of Bucharest (energy and economics specialisation).

Since 2005 she got three PhD titles from Italian and Romanian universities: a PhD in Environmental Engineering, a PhD in Energy Engineering and a PhD in Engineering and Management.

In 2013, she got the Italian National Qualification to function as Associate Professor in the sector of Environmental and Sanitary engineering. In 2023, she got the Italian National Qualification to function as Full Professor in the same sector, valid until 2034.

In 2016, she received the Eminent Scientist Medal from the Wessex Institute of Technology. Member of tens of scientific committees of international conferences, she is Author or co-Author of more than 300 articles in conferences and journals (more than 250 articles are indexed in the SCOPUS® database, giving an H index =41).

Editor of many Special Issues on International Journals with high and medium Impact Factor.

Presently she is Associate Professor in the University of Insubria, Italy, where she is also member of the Doctoral School Committee in Chemical and Environmental Sciences.

She was ranked in the top 2% scientists list of the World Ranking published by Stanford University (the last four years).
